

SUBMISSION FORMAT FOR MANUSCRIPTS (USE 11 POINT)

Author's names (11point)
Organizational affiliations (11point)
Mailing Address (11point)
E-Mail address (11point)

Abstract: All invited speakers are requested to submit a full-length camera-ready paper written in English. The manuscripts should be formatted single-spaced and sized for A4 paper (21cm × 29.7cm) with 2.5cm margins on all sides of all pages. The minimum length is 4 pages and the maximum length is 10 pages, including all text, references, tables, figures, and photographs. The pages should be left unnumbered. (use 10 point)

1. INTRODUCTION

The title should be written in bold capital letters and centered at the top of the first page. The authors' names, complete organizational affiliations, mailing addresses, and E-mail addresses should be two lines below the title as shown above. The authors are recommended to use 11 point "Times New Roman" font or its equivalence for the title and authors' names, complete organizational affiliations, mailing addresses, and E-mail addresses.

The abstract of about 100 words should be placed three lines below the last E-mail address. The main text should start three lines below the abstract and be written in a two-column format with 8mm spacing between columns. Use 10 point "Times New Roman" font or its equivalence for the abstract and the main text. Indent each paragraph by 3.5mm.

2. MAJOR SECTIONS

Each major section should begin with a heading in bold capital letters centered within a column and numbered using Arabic numerals except for ACKNOWLEDGEMENT and REFERENCES. Take a one-line blank before the section heading line.

2.1 Major Subsections

The subsection heading should be left justified in bold letters capitalizing the first letter of each word and numbered using Arabic numerals (2.1, 2.2, ...).

2.2 Equations

Equations should be centered in the column and numbered sequentially. Place the equation number to the right of the equation with right justification within its column. An example would be

$$\nabla \times \mathbf{H} = \mathbf{J} + \frac{\partial \mathbf{D}}{\partial t}. \quad (1)$$

When referring to an equation, use the number within parenthesis as (1).

3. FIGURES AND PHOTOGRAPHS

The submissions must withstand a black and white printing. The authors are recommended not to use color traces in graphical data or color photographs. Place figure and photograph captions directly below

each figure and photograph as shown in Fig. 1. The captions numbered sequentially using Arabic numerals should be always left and right justified, rather than centered, even if they are less than a single full line in length.

4. TABLES

Place table captions just above each table. The captions numbered sequentially using Arabic numerals should be always left and right justified, rather than centered, even if they are less than a single full line in length.

5. REFERENCING

When referencing a journal article [1], a conference proceedings article [2] or a book [3], place the reference numbers within square brackets. The reference list is placed in the last section. The references should be listed in the order cited as shown in the examples [1]–[3] below.

ACKNOWLEDGEMENT

The authors wish to acknowledge the assistance and support of the 7th Engineering Research Forum Steering Committee.
